

Policy H2 Small sites

- A Boroughs should pro-actively support well-designed new homes on small sites (below 0.25 hectares in size) through both planning decisions and plan-making in order to:
- 1) significantly increase the contribution of small sites to meeting London’s housing needs
 - 2) diversify the sources, locations, type and mix of housing supply
 - 3) support small and medium-sized housebuilders
 - 4) support those wishing to bring forward custom, self-build and community-led housing
 - 5) achieve the minimum targets for small sites set out in [Table 4.2](#) as a component of the overall housing targets set out in [Table 4.1](#).
- B Boroughs should:
- 1) recognise in their Development Plans that local character evolves over time and will need to change in appropriate locations to accommodate additional housing on small sites
 - 2) where appropriate, prepare site-specific briefs, masterplans and housing design codes for small sites
 - 3) identify and allocate appropriate small sites for residential development
 - 4) list these small sites on their brownfield registers
 - 5) grant permission in principle on specific sites or prepare local development orders.

4.2.1 For London to deliver more of the housing it needs, small sites (below 0.25 hectares in size) must make a substantially greater contribution to new supply across the city. Therefore, **increasing the rate of housing delivery from small sites** is a strategic priority. Achieving this objective will require positive and proactive planning by boroughs both in terms of planning decisions and plan-making.

4.2.2 Increasing housing output of this scale can also help to support a number of **related housing and planning policy objectives**. This includes:

- reviving the role of small and medium-sized developers in delivering new homes in London
