

People – Early Intervention and Family Support Service

Pre-market Engagement Event Information Pack

The London Borough of Bromley's Early Intervention and Family Support (EIFS) Service are in the early development stages of an upcoming tender opportunity to deliver activities/services from the 6 Children and Family Centres in Bromley.

This document outlines the proposals we have in place for the tender route, the specification and the request for quotation documentation.

Note the documents included in this pack are subject to amendments and the finale version will be included within the final Request for Quotation.

The EIFS Service is seeking the market's view, in the form of a questionnaire, on the proposed route and the documents that form part of the tender. The feedback obtained will help determine whether this process works in its proposed format, if anything needs changing, or if anything has been missed.

We welcome any information/ suggestions you can provide to help deliver the best service to our families.

The event is live from Monday 7th July to Friday 1st August 2025.
