# REMOVAL CONDITIONS

You are the registered keeper of the vehicle described overleaf, which you wish to have removed and disposed of by the London Borough of Bromley.

On submission of this application your vehicle must be made ready for immediate collection at the location given. As soon as your application has been processed you will be sent a letter of confirmation.

The interior of the vehicle will not be inspected on the day of removal; it will be your responsibility to remove anything of value prior to removal. The vehicle will not be removed if filled with waste material.

Until the vehicle is removed in accordance with your application, you will continue to be the owner and be responsible for its security, taxation and insurance if kept on the street.

By making this application, with the vehicle's registration document (Form V5) duly signed, the London Borough of Bromley will make arrangements for its removal. We will notify the Driver and Vehicle Licensing Agency of the vehicle's disposal.

If you wish to reclaim the vehicle after the submission of this application, you may be charged an administration fee of £25.
